CAREER FOCUS

I specialize in web development and Database Administration. I love learning and enjoy creating programming content, diving into both front-end and back-end development. As I venture into freelancing, I look forward to applying my skills to new projects and collaborating with fellow innovators.

EXPERIENCE

Backend Web Developer

Prince Management

📅 2022 - 2023 📍 Ahmedabad, Gujarat

Results-driven Direct Selling Agent with a strong sales track record. Skilled in building relationships, identifying opportunities, and providing exceptional customer service. Proficient in online platforms to promote products and manage sales pipelines.

PROJECTS

Password Generator (Python)

📅 09/2024 - 10/2024 📍 Ahmedabad, India

🔗 https://github.com/RIDHAMKALRA01/Password-Generator-

A program that generates random passwords, allows users to specify the password length, and provides an option to copy the generated password to the clipboard.

- A simple program that lets you create random passwords, choose the length, and easily copy them to your clipboard.

Chess Game (Python)

📅 10/2024 - 10/2024 📍 Ahmedabad, India

🔗 https://github.com/RIDHAMKALRA01/Chesssgame

A two-player chess game where players alternately move pieces on an 8x8 board, aiming to checkmate the opponent's king.

- A two-player chess game in Python with interactive play, following all chess rules, detecting endgame scenarios, handling special moves, and offering an easy-to-use interface.
